PRINTS

Prints are made by a professional lab using Kodak Professional Endura Papers. We offer two surfaces: Lustre and Metallic, depending on the product. Lustre prints have a more traditional, semi-reflective finish that is great for portraits. Metallic prints are more reflective, have higher color saturation, carry more detail, and are more suitable for landscapes. Black & White and toned prints (such as sepia) are individually developed to ensure optimum contrast between different parts of the image.

Gift prints are small prints that are great for sharing with family and friends. Unless used as part of an arrangement, they are usually too small to be displayed on the wall. Any print size between 4x6 and 8x12 is considered a gift print.

SHIPPING

Our products are hand packaged, and local clients typically choose to pick their order up at our studio when they are ready. For clients outside the area, we do offer free shipping at no additional charge. Most products will arrive within days of being ordered and are guaranteed within two weeks. Tracking numbers (if available) will be emailed to you as soon as your order ships. In order to get your products to you as quickly as possible, they may be delivered as separate shipments.

PROOFING

Private proofing sessions are typically held 1-2 weeks after your event. The sessions take place in our home studio, where our goal is to go through a slide show of all your pictures, help you narrow down choices to your favorites, guide you through the available print and product options that best fit your needs, and create and finalize your order. During this session you will also have the opportunity to view samples of most of our products.

Online proofing is also available with a webpage containing images from your event for \$50. The images are available on the proofing site for 30 days, but you can still make orders after that.

SALES TAX

All session fees and orders are charged sales tax, which is not included in the prices quoted in this document.
