## *Prints*

Fine Art prints are made using a giclée process on traditional art papers. In general, our paper is heavier weight and have more texture than standard photo prints. Black & White and toned prints (such as sepia) are individually developed to ensure optimum contrast between different parts of the image.

Gift prints are small prints that are great for sharing with family and friends. Unless used as part of an arrangement, they are usually too small to be displayed on the wall. Any print size between 8x10 and smaller is considered a gift print.
